Note: pictured is the [LeeBeauty foldable spa bucket](#)

**Step 1. Soak Feet in very warm water to soften feet and achieve a prune like appearance, before your 1st application.**

**Step 2. Towel dry your foot and add callus remover to the hard dry callused areas. (avoid soft skin) & let sit for 3 -5 minutes.**

**Disclaimer** if you feel a burning sensation on your feet rinse with water as soon as possible.

**Step 3.** Rinse off and use pumice stone or rasp to get rid of extra residue and dead skin.

**Step 4.** Repeat above steps for the other foot. **Note:** Some people have worse calluses than others and may need to do these steps a few times to get the desired result.
